

PICKENS CO. 4-H/MG PLANT SALE DESCRIPTIONS 2017

Giant 3-Year-Old Blueberry Bushes **Cost \$12** **3 gallon**

*Austin *Brightwell *Premier *Vernon Early season, usually starts ripening mid-June.
*Centurion * Powderblue Late season starts ripening mid-late July. *pink Lemonade Mid to late season beautiful rose-colored fruit
Blueberries are relatively pest-free and require little care once established. The average family needs 4 to 6 bushes. You can plant as few as 2 plants as long as you have 2 varieties for cross-pollination. Full sun. Will produce a small quantity of berries the first year and produce up to 2 gallons per bush after 3 years. Plant 4 to 6 ft. apart for a hedge/screening or 10 to 12 ft. apart for specimen plants.

Fig **Cost \$7** **1 gallon**

*Brown Turkey - Medium-sized, bronze-colored fruit excellent for preserving and good for fresh use.

Blackberry Thornless **Cost \$6** **1 gallon**

Self-fertile, sun, some shade, space 2 ft., thornless, pest-free, little care, winter pruning, yields 3 to 4 pints per plant.

*Apache - Firm fruit, overall rated between Arapaho and Navaho. Mid-season, ripens late June for 5 weeks.

*Arapaho - Firm fruit, non-aggressive. Early season, ripens mid- to late June for 4 weeks.

*Navaho - Firm fruit, high-sugar, non-aggressive. Late season, ripens early to mid-July for 5 weeks.

*Triple Crown-Yields large, glossy black firm fruit. Ripens mid to late season.

Strawberry **Cost \$12** **25 plants = 1 bundle**

*San Andreas - Disease-resistant, hardy, 1-2 in. fruit size. Several harvests each year. Can grow in containers. Sun. Heavy feeder.

*Evie-2 - Glossy red, good-tasting, nice-size fruit throughout growing season. Each plant yields more than a quart of berries per season.

Raspberry **Cost \$6** **1 gallon**

*Caroline Red – Pink fruit, everbearing, self-pollinating, large firm fruit, self-pollinating, keep 100 feet away from black raspberries

*Heritage Red - Everbearing, self-supporting, upright canes. Large dark red, sweet berries. Ripens in July, then repeats in September.

*Latham - Firm, large, medium-red fruit, with a delicious flavor. Heavy-bearing. Ripens in June to July.
